THE WEEKLY KAIMIN

VOL. IV.

UNIVERSITY OF MONTANA, MISSOULA, OCTOBER 20, 1910.

NO. 4.

CIRCULARS ARE ISSUED

LECTURE COURSE COMMITTEE
ANNOUNCES ITS ARRANGEMENTS FOR SEASON.

TALENT OF THE BEST

The Method of Assigning the Seats Will
Be the Same as Was Used
Heretofore.

The University Lecture Course Committee has announced the course program for the coming season in a circular letter just issued. The program as set forth in the letter contains eight numbers in place of the usual seven, the extra number, The Rawels, a trio of native New Zealanders, being offered the committee free. This attraction will be open to the holder of season tickets without extra charge.

The death of Senator J. P. Dolliver of Iowa, removed one name from the list and while it will be practically impossible to secure another man of the ability of Senator Dolliver, admittedly the finest orator in the senate, the committee will substitute a first-class attraction in his place.

The season tickets for the course are now on sale at the University and may be secured from Dr. M. J. Elrod. The season ticket sells for three dollars and gives admission to all of the eight numbers. The whole program will be given in the Harnois Theater and individual tickets for the whole course would total eight dollars. The opportunity is an unrivalled one and should be missed by no one who can in any way arrange to attend.

The program as announced by the committee follows:

November 4—Maude Ballington Booth, "The Little Mother of the Prison."

December 1—The Central Grand Concert Company.

Judge Ben B. Lindsay, Denver Juvenile Court, date not yet determined.

February 10—Packard, the Cartoonist and Entertainer.

February 27—The Dunbar Company, Male Quartet and Bell Ringers.

March 20—Governor Joseph K. Folk of Missouri.

April 13—To be filled.

April 24—The Rawels, a trio of native New Zealanders.

Detailed information may be secured upon application to any of the following members of the committee: Morton J. Elrod, J. Harding Underwood, Mable R. Smith, Jesse P. Rowe, Gertrude Buckhouse, R. N. Thompson, Arthur Bishop or William Bennett.

UNIVERSITY LEADS IN STATE FOOTBALL CHAMPIONSHIP RACE

'Varsity Defeats State School of Mines by Score of 8 to 0 on October 7 and One Week Later the Miners Take the Aggies Into Camp to the Tune of 14 to 0, Thus Gaining Second Place.

LITTLE'S PUNTING AND THE FORWARD PASS WIN GAME FOR MONTANA

Dornblaser, Ryan and Maclay Star For the 'Varsity on Defense---Jensen, Grupe, Cullity and Cullerton are Miners' Bright Lights---Both Games Are Slow, But Second Contest Shows Great Improvement on the Part of Furman's Men---'Varsity Plays in Bozeman Tomorrow.

The eve of the Varsity-Aggies game sees the University team the champion of the state—on paper at least. Montana has to her credit one victory, the School of Mines is credited with an even break, having won and lost once, while the Agricultural College foots the list with one defeat. If the 'Varsity wins the coming game with the Aggies she will lead at the end of the first round with every sign pointing to a return of the state championship to Missoula.

LE BARON BEARD
End

end of the fourth quarter after an hour of hard and not particularly brilliant football. The game was interesting and exciting but it was not a championship game. It savored strongly of the early season and showed only too well the difficulty with which the new game has been taken up. Neither team was very strong on the offense and Montana was notably weak in straight football.

It was a well-earned victory, however. The 'Varsity had the Butte team outclassed at every stage of the game. Individually and as a whole the University team was the stronger and, despite what critics may say, the victory was inevitable. The bright, particular stars of the game were Little, Dornblaser and Ryan for the 'Varsity, and Jensen, Cullerton and Cullity for the Miners. Little's punting and his running of forward passes undoubtedly won the game for the 'Varsity, while Ryan and Dornblaser were pillars of strength on the defense. Dornblaser

NED WINSTANLEY

EMMETT RYAN

also did good work in the offense gaining ground repeatedly through the heavy Miner line.

In a way the score should have been larger. Then, again, in a way it should not have been so large. Beard fumbled a loose ball over the goal,

GEORGE LITTLE
All-Montana End

partly through his own excitement and partly because of the fact that Ryan stepped on the hand which was holding the ball. This play reduced the

(Continued on Page Two)

TAX CAMPAIGN STARTED

STATE UNIVERSITY DIRECTLY INVOLVED IN CONSTITUTIONAL AMENDMENT QUESTION.

JONES IS IN CHARGE

The Alumni Association Will Open a
Publicity Bureau and Will Co-operate With Other Institutions.

"Will the University of Montana be compelled to make retrenchments in its development for lack of funds during the next two years?" This is a question that is troubling those who are most familiar with University problems. If the Constitutional amendment concerning taxation is not passed at the November election two-fifths of the revenue of the state will be cut off. According to statements of the State Board of Examiners and particularly those of Attorney General Galen, the educational institutions will be the first to close in the event of a shortage of funds.

Is Directly Involved.

The University is more directly involved for the reason that it derives its maintenance funds almost entirely from legislative appropriations out of state funds. The Agricultural College is supported mostly by federal funds and therefore derives only a small part of its income from strictly state appropriations. The Normal School at Dillon and the School of Mines in Butte are under the same conditions as the University, but neither of these institutions need as large legislative appropriations as the University.

Alumni Movement.

Realizing the gravity of the situation a number of the alumni of the University have formulated plans during the last few days to boost the amendment. The Executive Committee has held two meetings to consider ways and means, and Mr. John D. Jones, '06, has been chosen as chairman of a committee to take up the work of a publicity campaign. Mr. Jones is vice-president of the Alumni Association and was one of the most loyal alumni ever graduated from the University.

Campaign Literature.

The plans to bring the proposed amendment to the favorable consideration of voters include the sending out of large quantities of printed matter, the personal work of alumni throughout the state, appeals to party speakers to give the amendment attention in their addresses, and many other methods of securing the desired result. It is probable that the next assembly will be devoted to the matter.

DELEGATES ELECTED BY ASSOCIATED STUDENTS

In the election held by the A. S. U. M. yesterday morning Miss Mary Hansen of Missoula and Miss Gertrude Whipple of Townsend were chosen as delegates at large to the executive committee of the organization. The voting was done by the Australian ballot system and 80 votes were cast in all, each ballot containing two votes. Miss Hansen received 70 votes, Miss Whipple 48 and A. W. O'Rourke, the third candidate, 42.

The new delegates will hold their offices until the annual spring elections, having been elected to fill vacancies in the committee as elected last spring. The nominations were

made at a meeting of the A. S. U. M. held two weeks ago.

Miss Hansen is a senior this year and has been prominent in student activities since entering college. She has always been one of the mainstays of the Science Association and is at present the president of that organization. She is also prominent in the Clarkia Literary society.

Miss Whipple is a junior. She stands high as a student and should make an excellent officer. Her election to the executive committee means the addition to that board of a tireless worker and one who has the best interests of the school at heart.

EMMETT RYAN ELECTED TO SENIOR PRESIDENCY

At an election held last Thursday afternoon, the Senior class chose Emmett Ryan as president for the coming year. The vote was almost unanimous and the satisfaction over the choice seemed to be general. Miss Lucille Marshall was chosen vice-president; Miss Eva Coffee, Secretary, and M. S. Bullerick, treasurer.

Mr. Ryan, the new president of the class, is one of the most prominent students in the University. He has played on the football team for four seasons, has twice been unanimously chosen as tackle on the All-Montana eleven, has won his "M" in track three seasons, being captain of the team last

year, and has played twice on the 'Varsity basketball team, of which he is captain this year.

He is a graduate of the Teton County High School in Dupuyer. He represented that school in the Interscholastic meets three times, and still holds the High School Championship in the shot put. His election gives the northern county its second Senior president in two years, A. E. Leech of Dupuyer, having been president of last year's class.

The Seniors are already laying plans for the coming year and expect to make their last term in the University as enjoyable and as profitable as possible.

CALENDAR.

Friday, October 21.—U. of M.-M. A. C. at Bozeman.

Saturday, October 29.—Gonzaga College-University, at Spokane.

Saturday, November 12.—M. S. S. M.-U. of M., at Butte.

Thanksgiving Day, Thursday, November 24.—M. A. C.-U. of M., on Montana Field.

AND IT WAS A FAMOUS VICTORY.

Of course, we won. It was a good fight and a glorious victory. Taking into consideration the fact that it was the first game in the state in which the new rules were tried, and that there were many green men in both teams, the odds were in favor of neither side. Even if we did win on flukes, the victory was square and both teams were satisfied. The result of the game was far-reaching and it means more than the mere score.

Fighting Spirit.

Coach Cary has built up a team. Perhaps with more men at his disposal he has fared better than former coaches, yet "Bob" has rigged out a scoring machine that will be heard of again during the football season. He has imbued it with the fighting spirit and instilled into it the fact that sportsmanship ranks higher than victory.

The team on the other hand, has a coach who is more than a mere instructor in football. He is in for the love of the game and for the love of his Alma Mater. The men work for Cary because he is a part of the eleven. They strive because they know "Bob's" interests are Montana's.

The next point is that the team is for Montana. Teammates are schoolmates and nowhere in the country is there better feeling displayed between the members of a football squad than at the University. Although competition is keen and the discipline strict,

'Varsity and reserve, captain, coach and team are for Montana.

In the Bleachers.

In football, we all can't get out on the field, nor can we play the game from the side lines; so the best that many of us are able to do is to play the game from the bleachers. Last Friday the bleachers were filled; the rooters were there and the noise was forthcoming. The cheering was lusty, the singing was hearty while the rooting was simply resistless. Too soon in the game, the yell-leader lost his voice, but others were always willing to continue to acknowledge the good plays.

The "Serpentine."

That Serpentine was a new one. Even when the game was only half over the desire to celebrate was irresistible and so, as a result, the 'Varsity cohorts swept out on the field during the intermission and performed that marvellously intricate performance commonly known among college folk as the "serpentine." Best of all, it was led by old Yell-leader Stoddard. All through the first half, the football fever was coming back to "Stoddie" and when the serpentine was started he couldn't help getting at his old place at the head of the line for "just one more good old yell." The new men were in line and swelled out the procession. They will know what to do on Thanksgiving.

And the Bell in the Tower Was Rang.

"No matter when the custom was started, that bell-ringing stunt is a dandy," was exclaimed when the bell in the belfry began to give out the glad news. For two years the bell has been pealing out the victories with a joyous regularity. Friday the victory was exceedingly sweet, and the bell ringers were filled with extra energy, and for one whole hour, Senior and Freshman stood patiently in line to have their share at pulling the bell rope. Person after person over town, hearing the 'Varsity bell ringing, knew there was a contest and another victory to be added to the credit of the Montana gridiron heroes.

And We All Smile.

All Friday afternoon, Manager Thompson was wearing a smile that wouldn't even come off when Montana fumbled the ball. He simply couldn't stop grinning a little bit. For the news, which is good news, is that the game more than paid for itself. The game was not too well advertised, although it was only one of the two games that will be played on Montana field this season. But thanks to the kindness of the Missoula Street Railway Company, all of the street cars advertising was done gratuitously. The street cars have already proved a strong impetus to University activities and makes a valuable item to the advertisers. Football has not always paid for itself, but now the grand hoodoo seems to have dispersed and one of the largest crowds ever assembled on Montana field for a University event is expected on Thanksgiving Day.

The idea of marking the yard lines with signs for the special use of the novice, originated with Football Manager Forbis. Even if the engineers did paint the figures, it was "home industry" and every person in the bleachers used the markers and was thankful.

It seemed queer to see "Bish" on the field and not in football togs. But togs or no togs, "Bish" is always welcome on Montana field.

UNIVERSITY LEADS IN STATE FOOTBALL CHAMPIONSHIP RACE

(Continued From Page One.)

score by three or four, making what should have been a touchdown, a safety. On the other hand both of

Montana's scores were lucky. They were not flukes, because they both came through the vigilance of the Montana players and the slowness of their opponents, but nevertheless there was a strong element of luck in both.

The Scores.

The first tally came at the end of the first quarter. Winstanley made a forward pass to Little, the ball was dropped, rolled around for a minute and then was booted by a Mines man across the goal line for a safety, scoring two for the 'Varsity.

The second score came in the third quarter. The Miners were on their 15-yard line and formed to kick out of danger. Captain Maclay broke through the line and blocked the kick, the ball rolling across the goal line where Dornblaser fell on it for a touchdown. Winstanley kicking goal.

The resume of the game tells the whole story.

The Game.

It was exactly 3:15 when Referee Robbins of Butte blew the whistle which opened the game. The School of Mines had been on the field about five minutes and the 'Varsity almost as long. Captain Wood won the toss and the Miners received the kick. Dornblaser booted it 25 yards to Cos-

DAN CONNOR,
Guard.

grove, who returned it 10. Butte fumbled and lost seven yards and a forward pass to McElvenny was equally disastrous, Dornblaser recovering the ball on the Miners' 45-yard line.

Little punted over Quarterback Cullity's head and the ball went over the goal line. The Butte team put the ball in play on the 25-yard line with a line buck by Cullerton, which was stopped without gain. Jensen went around through left tackle for five yards and the ball went to the 'Varsity after a punt of 20 yards by Silverman. Day went through left tackle for two yards and Winstanley made it four with an end run. The ball was now on the Miners' 30-yard line and Winstanley attempted a place kick. The boot went wild, however, and was returned to the 25-yard line by Cullity.

No Gain.

The Miners were again unable to gain yardage, a line buck by Cullerton and an end run by Grupe gaining only three and two yards, respectively. Cullity punted 20 yards and the ball was returned 15 by the Butte team. Winstanley punted and the ball again crossed the goal of the Butte team. Daly hit the line for no gain and Montana was penalized five yards for offside. Jensen went around for four and Cullity tried a straight buck, which brought five more. The Miners were too close to the goal for an attempt for the other yard, however, and

Cullity punted. The ball went 25 yards to Winstanley, who carried it back five yards before he was stopped. The Miners were penalized five yards for offside and it was second down in the middle of the field.

Winstanley punted 30 yards to Cullity, who was downed in his tracks. Silverman was unable to gain through the line, but a forward pass to McElvenny netted eight yards. Cullerton was sent against left tackle for the other two yards, but was unable to gain. The ball went over on the Butte team's 36-yard line.

The First Score.

Then came the 'Varsity's first score

ploughed through right tackle for five yards, but the Miners lost the ball resulting scrimmage a Butte man kicked the ball over the goal line. Beard was right after it, but couldn't hold it, and a Mines man fell on it, making the score 2 to 0 in favor of the 'Varsity.

The ball was put into play on the 25-yard line again. Cullity made a again on an attempted forward pass, which was caught by Ryan and brought 10 yards closer to Montana's goal. Little punted 40 yards to Cullity, who was downed in his tracks. Cullerton made five yards on Butte's famous delayed pass and then went straight through for four more. Cullity kicked again, sending the ball 20 yards into Winstanley's arms, who brought it back seven yards to the Miners' 47-yard line, where time was called for the first quarter. Score: Montana 2, Mines 0.

The Second Quarter

Dornblaser bucked right tackle for no gain and Day only made one over the left tackle on the same play. Winstanley punted 30 yards to Cullity, who fumbled, and Beard recovered the ball. Montana fumbled, but kept the ball, and after an end run by Winstanley had made it third down with 7½ to go, a place kick was attempted. The center passed the ball too high, however, and a 20-yard loss was the result, the ball going to Butte on its own 30-yard line.

Silverman made four yards on a double pass and Cullerton made it first down with a gain of seven yards through right tackle. An onside kick was gathered in by Little, who was downed in his tracks. The Miners were penalized twice for offside, Grupe being the offender in each case. Deschamps made a forward pass to Little, which gained Montana 12 yards. Dornblaser bucked the line for four yards and Winstanley was thrown for a two-yard loss. Little punted 30 yards to Cullity, who was downed after re-

MEN'S PAN-HELLENIC RULES.

We, the men's fraternities of the University of Montana listed, have duly enacted the following rules:

Men's Fraternities.

Sigma Nu.
Sigma Chi.
Iota Nu.

Rule I.—We agree that we shall not initiate any one except he be officially registered in the collegiate department of the University of Montana, and have official credit for twelve hours collegiate work.

Rule II.—We agree that no person shall be pledged to any fraternity until he shall have been registered three weeks in the University of Montana.

Rule III.—Immediately upon pledging a member to any of the organizations as listed above, we agree to place an official emblem upon the said person, who shall wear it for at least four college days thereafter. Pledge emblem or ribbon is to be in a visible place.

Sigma Nu.—Yellow, black and white.
Sigma Chi.—Blue and gold.
Iota Nu.—Maroon and green.

Rule IV.—We agree that there shall be no bidding or pledging from Commencement Day 1910, until October 25 9 P. M.

Rule V.—No regular student in the University of Montana, except he be a pledge or initiate of one of the fraternities in the University of Montana may live in a fraternity house, unless he be given unanimous written consent of all of the delegates of the Pan-Hellenic Council.

Rule VI.—The above rules are to stand until other rules are adopted to replace them.

Secretary of Pan-Hellenic Council.

INTERCOLLEGIATE NOTES.

The Boston Transcript reports 600 Chinese students in the colleges and universities of this country. Under an arrangement for the use of an indemnity returned to China by the United States Government, the number is likely to be increased by more than a thousand within the next few years.

The Kalmin is pleased to welcome a new paper into its number of new exchanges. The Lariat, the bi-monthly, is from the Billings Polytechnic institute.

The board of trustees of the University of Mississippi has banished all

Greek letter societies by unanimous vote.

Two of the large eastern institutions have been enriched by the fortune of two benefactors. The late Professor Golswin Smith left \$689,000 to Cornell University, and Isaac Wyman, a late alumni of Princeton University left that institution \$10,000,000.

The Mars Hall at Cornell University is to have an addition built, the cost of which is provided for by Mr. Andrew Carnegie's gift of \$50,000.

Many improvements in the Montana State College of Agriculture met the eyes of the students this fall. A new Woman's dormitory is enclosed and will be ready for occupancy soon.

UNIVERSITY LEADS IN STATE FOOTBALL CHAMPIONSHIP RACE

(Continued from Page 2.)

turning the ball six yards. Butte took time out for Cullity.

The Miners fumbled again and Cullity punted 30 yards to Little, who was downed in his tracks. Day, was held for no gain on a line buck, but Little made it first down on a forward pass from Winstanley. Dornblaser tore through right tackle for six yards, but Day was again stopped by Jensen. Dornblaser fumbled and the Varsity lost a yard. Little punted 40 yards and the ball crossed the goal line for another touchback.

The Miners lost five yards on an attempted forward pass and were held without gain again on a trick triple pass, which was thoroughly balled up. Cullity punted 30 yards to Little, who was caught in his tracks. Day was again held for no gain and Winstanley was thrown for a yard loss. Dornblaser made it third down with nine to go by hitting right tackle. Little punted 35 yards and Cullity brought the ball back 25 and the stands to their feet. It was one of the prettiest runs of the game. Cosgrove went through right tackle for five yards and Jensen came back around for one. Cullity then kicked 26 yards to Little, who was stopped without gain. The Miners were penalized five yards for rough work.

Deschamps made a fizzle out of a forward pass and the ball was brought back. Dornblaser went through the line for five yards and Little punted. It went high in the air, spinning a spiral, and came down into Cullity's arms a full 70 yards away. Cullity came back 15 yards. A forward

pass to Beard, which hit the ground, the half ended.

The Second Half.

Manwaring went in for Grupe at right end on the Butte team. He kicked off 40 yards to Day, who returned the ball five yards. A fake kick by Winstanley was disastrous, no gain being made. Beard made it first down on a forward pass from Winstanley and Little added 20 yards to this on another forward pass. Dornblaser went through the line for five yards, but the procession was checked when Winstanley held the ball a little too long in making a forward pass, and was downed eight yards behind the line.

Little punted 60 yards to Cullity, who came back 10. Cullerton went around right end for five yards and Montana was penalized five yards for offside. Daly made five yards on a forward pass, but Cullerton was stopped at the line on another of his swift plunges. McElvenny went around right end for five yards and Silverman was held on a delayed pass. Little then pulled off the sensation of the day by grabbing a Butte forward pass and carrying the ball back 40 yards. Montana then started off with a rush. Deschamps tore around left end for two yards. Dornblaser went through tackle for three more and Little made it first down by taking the ball six yards on a forward pass. Day tore through tackle for four yards and Dornblaser followed suit on the other side. Then, when the goal was in sight Montana fumbled and Jensen recovered the ball.

But the score was bound to come. Cullerton bucked the line without gain and was held again on a fake kick. Cullity then dropped back to punt and the kick was blocked by Maclay. The ball rolled over the line and Dornblaser fell on it for a touchdown. Little punted out and Winstanley kicked goal. Score: Montana 8, Mines 0.

The game started out again with a rush. Throughout the third quarter the Varsity kept the ball in the Miners' territory, never gaining enough however, to put it over. In the last quarter, just before time was called, the Butte team rallied, and for the first time kept the ball in Montana's territory for more than a few plays. Time and again the Butte team rushed the ball up to the 15-yard line, only to be held and repulsed again. Clinch was laid out and Newton was put in his place at right guard. Connor was laid out and Bennett took his place, and W. Theime was sent in to relieve Day. Montana never became aggressive again, however, and the game ended with the ball in the middle of the field in Butte's possession.

The teams lined up as follows:

Montana.	School of Mines
Positions.	
Beard	McElvenny
Left End

ball game. The Miners won out after an uninteresting game, by a score of 14 to 0. The score should have been larger, for the Aggies lacked strength in every department, and it would have been had it not been for the ragged work of Cullity in the deep-field. Out of probably a dozen punts the little quarterback only caught one and the Miners lost a lot of ground in consequence.

Cullerton, the big fullback, starred for the Butte team. Running behind almost perfect interference around the Aggies' weak left end, he was able to

gain ground at will, once running for 45 yards, twice for 40 and any number of times for an average of from 15 to 20 yards. Altogether the big man gained 235 yards.

The Miners showed some improvement over their game as played in Missoula the week before, but the Aggies were clearly out of the college class and could neither gain nor repulse the attacks of their heavier opponents. The only bright feature of the Aggies' game was the work of Williams, who played a good individual game.

SCIENCE ASSOCIATION MEETS.

At the regular meeting Tuesday evening the members and friends of the Science Association had the pleasure of listening to Dr. J. H. Underwood, who addressed the assemblage on the subject "Scientific Methods of Social Reform."

Dr. Underwood says that the meaning of social reform is obscure. He would define it as the artificial process of producing better social conditions.

"Nature alone will reform society in time—scientific methods are artificial and quicker. The student of social reform must be of scientific mind. The basis of study of sociology is a broad knowledge of historical fact. No person who has not made a careful study of social progress is fitted to criticize modern methods of social reform. The science of sociology suffers more than any other science through the writings of misguided persons. 'Trust busting' has failed. Now scientific methods are undertaken.

"The basis of all graft is the love of social position. Just so long as people respect and associate with grafters and their families, men will continue to graft. We should not make friends with people who are corrupt."

MACHINERY ARRIVES.

The new machinery for the engineering department, which, as has previously been announced, was consigned to the school by two eastern manufacturing companies, has arrived and is ready for installation. The consignment consists of two modern gasoline engines and a complete refrigerating plant.

The machinery arrived in Missoula last Tuesday and was taken to the campus Tuesday night by the engineering students. So heavy was the machinery that the expense of drayage would have been excessive and in order to avoid this the students chartered the work car of the street railway company and used it in transporting the machinery. It was necessary for them to wait until after midnight to do the work, so that the car schedules would not be interrupted,

and several patriotic students worked nearly all night moving the university's new property on to the campus. The machines will be set up at once. The gasoline engines will be used in the laboratories of science hall and will furnish the basis for a course in gas engineering. The refrigerating plant will be set up in the basement where a place now waits for it, and the ice needed in the dormitory will be manufactured there.

ELLEN TERRY TO MISSOULA.

President Duniway announced this last assembly that Ellen Terry with her old-time charm would give an entertainment in conjunction with the lecture course this season. This will be a special number and will be priced the same as a regular performance. The entertainment will consist of recitations in costume of Miss Terry's favorite representations of Shakespearean parts and of talks and discussions on Shakespeare and his work.

This will be a real treat, and, as Dr. Duniway stated, will be something really "great." The date has not yet been announced, but due notice will be given.

MEETING CALLED OFF.

Because of the few members that were present at the Engineer Club last night, it was decided to carry the program over until next regular meeting. Among the few present was C. S. Dimmick, an '07 graduate of the engineering department. The boys, seeing that there would be no meeting, had Mr. Dimmick tell a few of his experiences in engineering work, and so an hour was pleasantly passed away. It is hoped all members will turn out for the next meeting.

Beta Delta chapter of the Sigma Chi fraternity entertained a party of Butte girls at a house party for a few days following the Varsity-Mines football game. The fraternity house was turned over to the visitors who, for several days, made themselves at home there. Mr. and Mrs. Creighton Largey chaperoned the girls. Those in the party were the Misses Gladys Hancock, Mike Burkin, May Hanley, Florence Twohey, Ollie MacDougal and Marie Lyons.

JOHN D. JONES SPEAKS

PUBLICITY CHIEF IN TAX AMENDMENT CAMPAIGN TALKS AT OFFICIAL ASSEMBLY.

John D. Jones, '06, who has been chosen by the Alumni Association to take charge of the publicity end of the campaign for the passage of the tax amendment to the state constitution, delivered an interesting speech before the student-body at the official convocation held yesterday morning. He discussed the amendment and the effect which its passage or failure would have, and threw an interesting light upon the campaign. "I feel rather embarrassed up here," said Mr. Jones in opening his speech, "for my position has always been down below with the students." After a short, genial self-introduction Mr. Jones continued. The constitution at present, he explained, calls for a general tax of 2½ mills up to the time when the assessed valuation of property within the state shall reach \$300,000,000. Out of this tax the state institutions are conducted. He stated that this point had been reached and that according to the working of the constitution this general tax will now drop to 1½ mills. The executive, legislative and judicial branches of the government all have to be supplied from this fund at the start, he said, and if the tax rate is lowered there will be nothing left for the state educational institutions after the active branches of the state government have reached their share.

The Amendment.

The amendment, if adopted, will leave the tax rate as it is until the assessed value of the property in the state has reached \$600,000,000, when the tax will be large enough to support the state institutions, and then to lower it to 2 mills.

He then outlined the student end of the campaign. Mr. Jones appointed Massey McCullough and Thayer Stoddard to take charge of advertising at the polls. They will have printed pamphlets for distribution to the voters.

President Duniway.

Dr. Duniway opened the assembly with a few announcements. He stated that Paxson's picture, "Sacajawea," which has been hanging in the library, has been purchased, and that a campaign has been started by Miss Gertrude Buckhouse for the purpose of re-buying the picture. The original purchaser, the president said, has signified his willingness to pay the balance of the cost, over \$200, if the university can raise the first \$200.

President Duniway commented on the scholarship, stating that the average was below last year's, and appealed for a raising of the standard.

A report will be made every week hereafter, and the work of each student will thus be subject to continual observation. Dr. Duniway does not feel discouraged, but feels that the scholarship will improve.

FRESHIES IN CAPS.

In the last year or two Montana has developed greatly in the way of college activities and has been getting in line with larger institutions in this regard.

The turn-out of the freshmen last Tuesday in their nifty, gray caps added much to the real college air of the campus and was also a credit to the class, both in the matter of appearance and the sportsmanlike way in which they took up the idea. The new caps, which were made according to a design furnished by a committee of upperclassmen, are gray with little maroon buttons on them. They are exclusively freshman property—temporarily at least—and must be worn by first-year men on the campus.

AGGIE BOOSTERS BUSY

CLUB AT STATE AGRICULTURAL COLLEGE JOINS IN AMENDMENT CAMPAIGN.

The Boosters' Club of the Agricultural College has joined in the campaign for the tax amendment to the state constitution with a vim. Realizing the effect which the failure of this amendment and the enforcement of the present provision in the constitution would have upon the state educational institutions, the club has sent out a circular letter to all parts of the state, and by use of the public press has given its views a wide circulation. The letter and the circular follows:

To the Voters Who Are Interested in the Further Development of Montana:

You must meet a crisis in the election this fall. There will then be presented to you an amendment which, in effect, will provide for the continuation of the present tax rate. It is for you to decide whether or not the income of Montana shall be diminished by \$300,000. Such a decrease would check the advancement of the state along the lines of road improvement, of conservation of natural resources and of maintaining state institutions.

The constitution of the state at present provides that when the assessed valuation reaches \$300,000,000 the tax rate shall not exceed one and one-half mills; instead of two and one-half mills, as at present. The proposed amendment is to remove this limitation and thus leave the rate unchanged.

The measure is not partisan, and does NOT mean to increase taxes, it means only to leave the rate as it is. Attention is called to the fact that Montana's tax rate is already lower than that of other western states of like rank. The decrease provided by the constitution would make the rate absolutely the lowest in the northwest.

Can Montana, the largest of this group afford to hamper her development to such an extent? This is a growing state, commercial and industrial interests are expanding, new duties are continually devolving upon the state government and the necessary expense of maintaining that government increases proportionally. Do you wish to see these duties and responsibilities neglected for the sake of a paltry gain? If you have now an assessed valuation of \$25,000 the defeat of the amendment will save you just \$25.

A vote for the amendment means a vote for progress, for prosperity, for the continued growth of the state; a vote against the amendment is a vote for the reduction of the state income, for penury, for stagnation.

SENTINEL WORK BEGUN

EDITOR-IN-CHIEF A. W. O'ROURKE OPENS SENTINEL OFFICE—REVISION IS MADE.

Actual work on the 1912 Sentinel was started last Friday, when the office was moved to the southwest quarter of the museum, adjoining the Kaimin offices. Here the fixtures are being placed in position and within a few days it will be one of the busy places at school. The first marked step in the work of the annual was consummated also Friday, when Business Manager Thieme awarded the contract for engraving to the Bureau of Engraving of Minneapolis. This firm handled the engraving for the 1910 and 1911 Sentinels, and its work needs no introduction to the older student body.

The editorial staff has been revised, owing to members not coming back to school this fall, and Editor-in-Chief O'Rourke reports the following complete staff:

Associate Editor, Helen A. Wear. Literary Editor, Florence De Ryke; Associates, Azelle Savage and Florence Sleeman.

Organization Editor, Clarence H. Buck; Associates, Dudley Richards, Cornelia McFarlane, Grace Rankin, Harold Sloane, Helen Metcalf and Beatrice Stillinger.

Athletic Editor, Edward Winstanley; Associates, Ernest Lovett and Ernest Fredell.

Art Editor, E. E. Hubert; Associate, Carrie Wharton.

Local Editor, Fay Kent; Associates, Nina Gough, Shirley Shunk and Holmes Maclay.

Calendar Editor, Florence Leech; Associates, Maude Johnson, Gertrude Whipple and Jocelyn Whitaker.

PATTERSON TALKS.

John E. Patterson delivered his second lecture on "Torts" at the university at 11:30 this morning. The talk was a continuation of the one given by Mr. Patterson last Tuesday, and was both thorough and interesting. The lecture was given before the elementary law class as a part of the course, but a number of visitors attended and were apparently much pleased with the talk.

The Alpha Nu chapter of Kappa Alpha Theta sorority initiated Miss Eloise Knowles, instructor in art at the university, on Saturday evening, Oct. 8. The initiation service was held at the home of Judge Hiram K. Knowles. Miss Knowles was a member of the local sorority, Theta Phi, which was given the charter in Kappa Alpha Theta. At the time of the installation Miss Knowles was in the east.
